

Total Workforce Management Services (TWMS) Quick User Guide

Pre-Recruitment Management

Periodic updates to the Pre-Recruitment tool may not be reflected in this document.

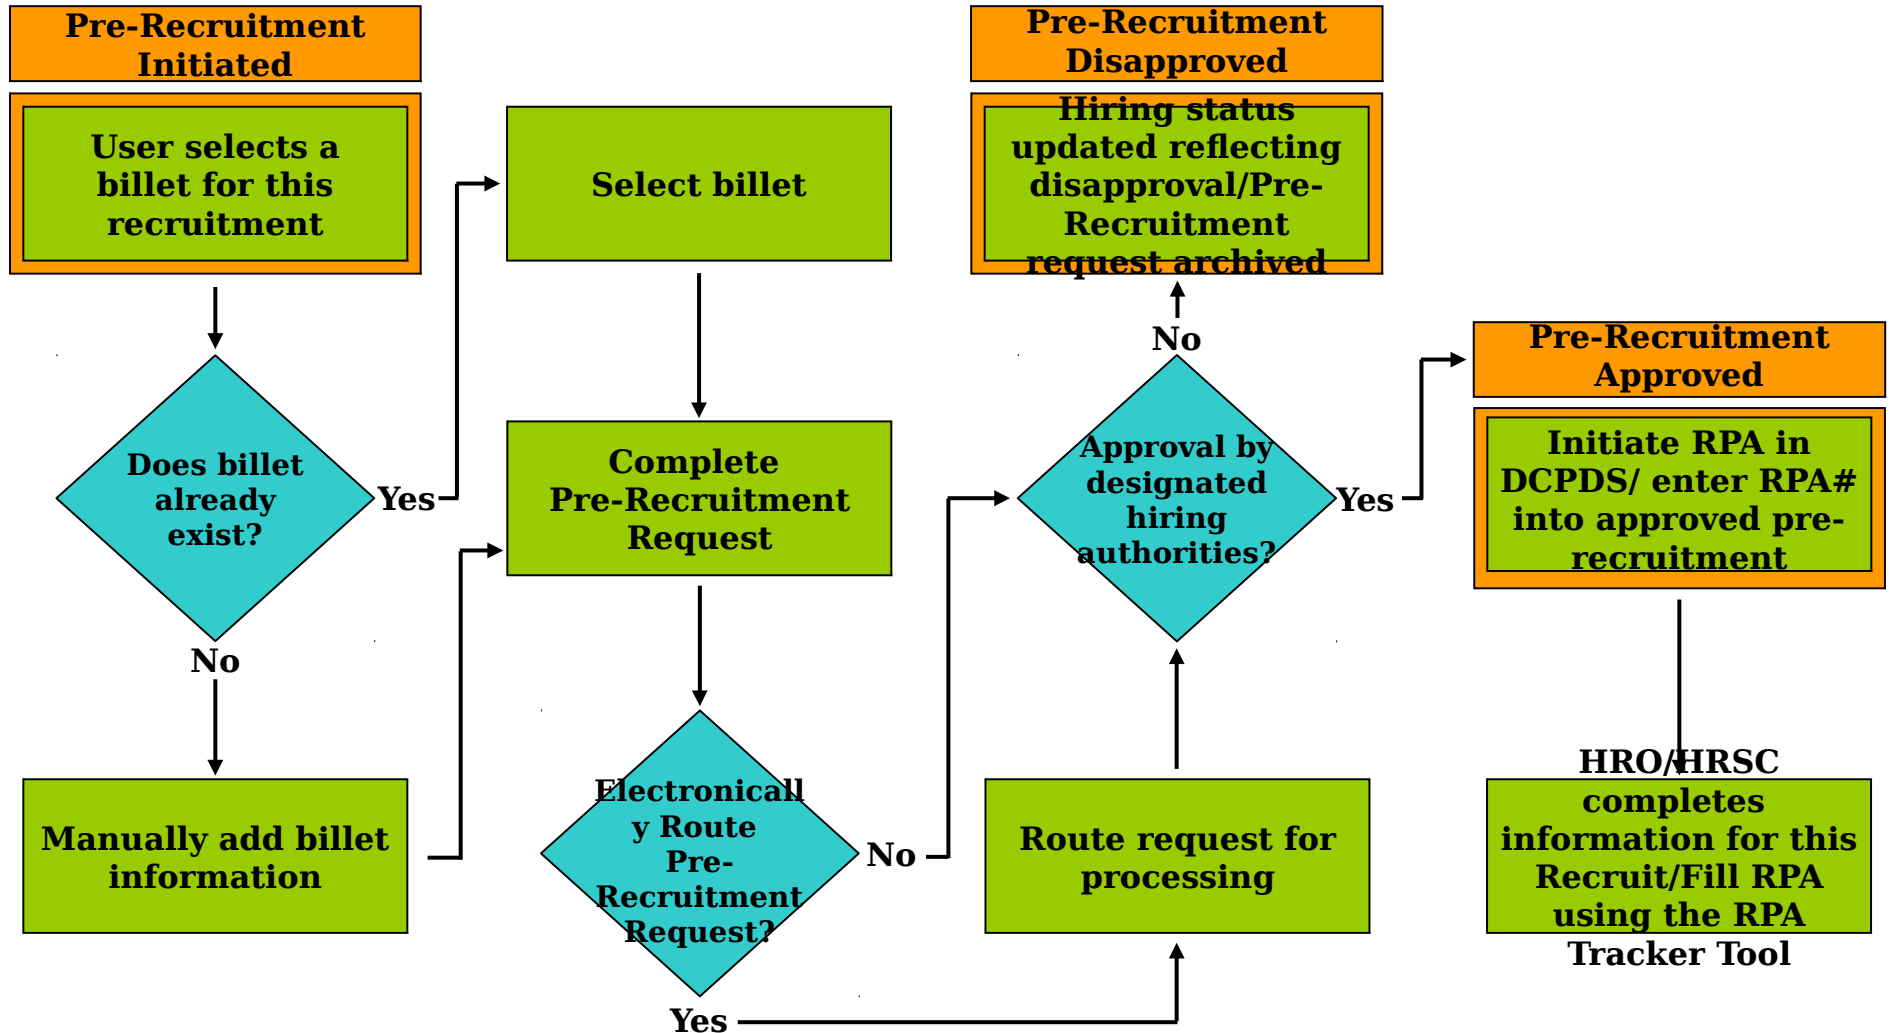

February 2013

Managing Your Pre-Recruitments in TWMS

The Pre-Recruitment tool in TWMS allows you to view prospective recruitments, create a new recruitment worksheet, and to define the routing for who should be notified of a new recruitment request.

- The Pre-Recruitment tool in TWMS was adapted to:
 - Facilitate the standardized reporting required by OCHR
 - Consistently apply the same hiring considerations across the DoN
 - Provide the same decision-making information required by designated hiring authorities
 - Help achieve OPM's hiring process "cradle to grave" target timeline of 80 days
- Routing sheets, if implemented, should generally include personnel from:
 - Manpower
 - Business Office
 - Financial Management
 - Human Resources

Pre-Recruitment Workflow

Accessing the Pre-Recruitment Module

TWMS gathers all the information necessary to decide whether to authorize the hiring of a new position or of an existing position previously filled by another employee. There are particular fields that are required by OCHR in this Pre-Recruitment process. Additional features, such as routing the Pre-Recruitment “package” are optional and can be used in parallel to any meetings or discussions where hiring decisions are made.

To access the Pre-Recruitment module in

TWMS*:

1. From the Home Page click on the **Tools/Function** button on the Actions Menu.
2. From Tools/Functions choose the **Pre-Recruitment Management** button located under the Workforce Management Tools header.
**You must have the appropriate permissions to view and/or edit Pre-Recruitments.*

Accessing the Pre-Recruitment Module

The Pre-Recruitment Manager main window is now displayed. This window contains three tabs. The first tab, "Search Requests", is the default view and displays all Pre-Recruitment requests within your scope of access that have already been created. The second tab, "New Recruitment", allows you to initiate a Pre-Recruitment for an employee within your scope of access. The third tab, "Default Routing", allows you to create and manage the default routing of Pre-Recruitments and will be discussed first.

You can change the status of the Pre-Recruitments you want to display.

A list of Req#s already created will be listed here.

Creating a Pre-Recruitment Routing Template

Routing chains used to approve all Pre-Recruitments are created and maintained in TWMS. All routing chains have the following attributes:

- Are associated with one UIC and at least one Org Code
- Contains a list of approver names and email addresses along with the specific role of each
- Are not sequenced in any manner as all approvers receive information regarding the pre-recruitment simultaneously

Together, these attributes create a routing chain 'template'.

Creating a Pre-Recruitment Routing Template

Selecting the Default Routing tab will display all the existing routing templates for the UICs and Org Codes within your scope of access. Here you can search for a specific routing template or sort them by UIC or Org Code. You can also view the members of each of these existing routing templates or delete the entire routing template.

To create a routing template*:

1. Click the **Default Routing** tab.
2. Click the **Add New** link.

Manage Default Routing

Search Recruitments New Recruitment **Default Routing**

February 2013

Creating a Pre-Recruitment Routing Template

You must select a UIC and, at minimum, one Org Code in order to create a routing template. All pre-recruitment requests belonging to this selected UIC and Org Code will be routed for approval using the routing template created in these steps.

3. Click the **Select** button to find the UIC.

Add New

UIC **Select**

Org Code

Enter an asterisk (*) for all Org Codes in a UIC
If a UIC has multiple routes where one is a wildcard, the routes with a real matching org code will override the wildcard route.

Create

4. Only UICs within your scope of access will display. If you don't see the UIC you want to select then you can page through the list of UICs or enter the UIC or Command Name and click **Search**.

Search:

UIC Command Name **Search** **Cancel**

	UIC	Command Name
Select	00052	CDR NAVY INSTALLATIONS COMMAND
Select	00242	NAVY REGION SOUTHWEST
Select	00246	NAVAL BASE CORONADO
Select	00950	NCTAMS PAC WAHIAWA HI
Select	3049B	COMNAVREG EURAFSWA NAPLES
Select	30588	NCTAMS PAC DCS WAHIAWA HI
Select	35177	NCTAMSPAC COCOM DET

<< Prev 1 of 1 Next >>

5. Click the **Select** link next to the UIC you want to create a routing template for.

For Official Use Only * Safeguard in accordance with the provisions of the Privacy Act*

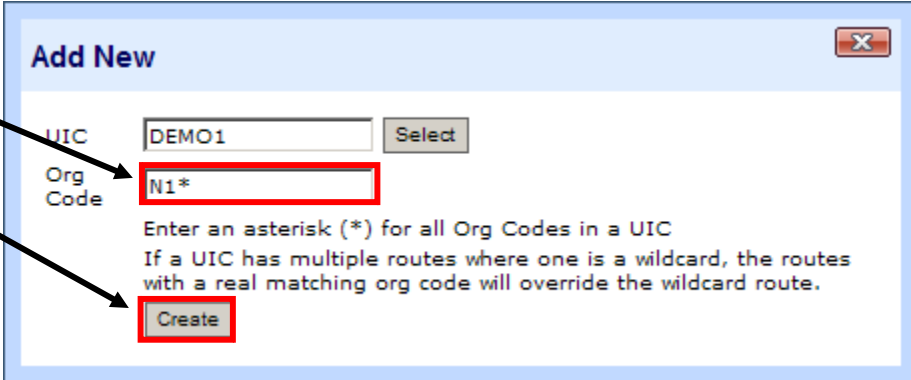

Creating a Pre-Recruitment Routing Template

You can choose to have all of the Org Codes within the selected UIC use this routing template or you can select one Org Code or several Org Codes (using the wildcard “*”) to use this routing template.

6. Enter the Org Code you would like to include for this routing template.

7. Click the **Create** button.

Note: If you enter N1 for the Org Code then this routing template will, for example, apply to N11, N111, N12, N13, etc. If you also create another routing template specific to Org Code N13 then this routing template will NOT be used by the routing template for the Org Code N1*.*

The screenshot shows a dialog box titled "Add New" with a close button (X) in the top right corner. It contains two input fields: "UIC" with the value "DEMO1" and a "Select" button to its right; and "Org Code" with the value "N1*", which is highlighted with a red rectangular border. Below these fields, there is explanatory text: "Enter an asterisk (*) for all Org Codes in a UIC" and "If a UIC has multiple routes where one is a wildcard, the routes with a real matching org code will override the wildcard route." At the bottom of the dialog, there is a "Create" button, also highlighted with a red rectangular border. Two black arrows point from the left towards the "Org Code" field and the "Create" button.

Creating a Pre-Recruitment Routing Template

A new tab, “Manage Route Members”, is now available and is automatically displayed for you. There are no restrictions to the employee types you can select from when choosing an approver but they must have a record in TWMS.

The header displays the UIC and Org Code(s) of this routing template.

Creating a Pre-Recruitment Routing Template

Remember that creating a routing template is not mandatory but it is recommended to route all pre-recruitment requests to those personnel responsible for them.

11. Click the dropdown arrow to select the role for this approver and then click the **Add Member** button.

The name of the approver, their email address, selected role in the routing, Assigned UIC and Org, and employee type now appears in the listing. Click the Delete link to delete this approver from the routing chain.

For Official Use Only *Safeguard in accordance with the provisions of the Privacy Act*

12. Repeat steps 8-11 to add other approvers to this routing chain.

Deleting a Pre-Recruitment Routing Template

You can also delete an entire routing chain.

To delete a routing chain:

1. Click the **Delete** link corresponding to the UIC/Org Code(s) of the routing chain you would like to delete.

Adding Notes

The fourth tab allows you to add notes related to this pre-recruitment request. Other users will also be able to add their notes and to view what others have written.

To add a note to the pre-recruitment request:

1. After selecting the pre-recruitment request click the **Notes** view.
2. Click the **Add New** link.
3. Enter the text for this note and then click **Add**.
4. The note has now been added. It can also be edited and deleted.

The screenshot shows the 'Notes - FY2012-229 HARDWARE SPECIALIST' interface. The top navigation bar includes tabs for 'Search Recruitments', 'New Recruitment', 'Default Routing', and 'View/Edit Recruitment'. Below this, a secondary bar contains 'Recruitment Details', 'Job Analysis/Assessment Information', 'Attachments', 'Notes' (highlighted with a red box), 'Approval Routing', and 'DON Recruit/Fill Request Form'. An arrow points from the 'Notes' tab to the 'Add New' link in the 'Notes' section. The 'Add New' modal is open, showing a text area with the text 'Mr. Cayce is out on leave until the 29th.' and an 'Add' button. An arrow points from the 'Add' button to the 'Add' button in the modal. Below the modal, the 'Notes' section shows a list of notes. The first note is 'Mr. Cayce is out on leave until the 29th.' with a 'Created By' field showing 'WOLFE, MICHAEL' and a timestamp '9/19/2012 10:54:00 AM'. The note is highlighted with a red box, and an arrow points from the 'Add' button in the modal to this note. The 'Created By' field is also highlighted with a red box.
